Peyronie's Disease Symptom Checklist

Peyronie's disease can have various symptoms and most patients do not have all of them at any given time. Use the checklist of common symptoms below to help your doctor understand what you are experiencing. This will help them to decide what the best possible treatment options are for your specific case.

Curvature with hardest possible erection of approximately _____ degrees
(assume perfectly straight shaft is 0 degrees and a curve straight up is 90 degrees)

Firm lumps

How many? _____

Where is it located? _____

Firm ridges or veins running down or around the shaft

How many? _____

Where is it/they located? _____

Pain with erections

On a scale of 1 to 10 how severe is the pain? _____

Loss of erection firmness

The entire shaft is not firm

The shaft is firm to a point, but beyond that it is semi-firm

Loss of length or girth

When erect

When flaccid

Indentations in the shaft or an hour glass shape to the shaft

Difficulty penetrating for intercourse

Psychological effects

Depression

Anxiety

Other _____

Use this area to note any thing else you have noticed

Questions for the Doctor

Most of us have visited our doctor and remembered the one question we really wanted to ask five minutes after we left. Using this tool will help make sure that you are prepared for your appointment and that you remember all of your questions.

Doctors are commonly asked the questions below about Peyronie's disease. Check off the questions you want to be sure to ask:

- My penis has started to curve when I have an erection, why?
- I have pain when I have an erection. Is this common?
- How did I get this condition?
- Are the lumps cancerous?
- Will I be able to have a penis straight enough to have sex again?
- What are the different treatment options?
- The psychological impact of this condition has been as bad or worse than the physical problems, is this typical and how can I get help?

Use this area to write down your specific questions.

Progress Report Card

Before each visit with your doctor use this helpful tool to record the changes you have seen since your last visit. You might be surprised how quickly you will forget about symptoms as they improve. This will help to identify improvements in areas that you may have forgotten about, or that are not improving that you can talk to your doctor about.

Insurance Questionnaire

Many insurance companies do reimburse patients for Transdermal Verapamil 15% Gel, but some do not. The questions below will help you to determine what your insurance coverage will be. Upon filling your prescription, we provide you with a paid invoice and a Universal Claim Form to be submitted to your insurance carrier for reimbursement.

Questions to Ask Your Insurance Carrier:

- 1) Does my plan cover compounded prescriptions?
- 2) If so, at what rate am I covered? What percentage of coverage can be expected?
- 3) I have a prescription for a compounded medication containing Verapamil Hydrochloride (NDC #38779-0275-04) and would like to ensure that it is on your drug formulary. Please confirm the NDC# is covered under my plan.
- 4) This medication is a patented, sole source drug, and I am required to go out of network and pay “out of pocket.” Does this alter the percentage of reimbursement? If so, how?
- 5) Does my plan have a specific claim form that should be used to submit my claim? If so, please send several to my address.
- 6) What address should I mail my claims to?
- 7) The length of treatment is expected to be 6 to 12 months. If I fill the prescription for 90 days at a time, the pharmacy has stated that there is a cost savings of 10% and a 20% savings for a 180 day prescription. Will my plan cover filling multiple months at a time, or does it state a certain number of days allowed?
- 8) Due to the proprietary nature of this compound, a detailed list of ingredients will not be available. How will this affect my reimbursement?
- 9) Is a prior authorization required for reimbursement?
- 10) Will you please provide your name and direct extension?

Please write down the name of the person you spoke with, their extension, the date and time of the conversation, and any specific answers that were given so that you may contact that same person for follow-up at a later date if needed. After you have spoken with your insurance company, PDLabs will help to answer any questions you have. Please call us at 1-800-687-9014.
